Steps

1. Download the App from the Apple App store or from Google Play store. Search for "LUEDD".
2. Open the App.
3. Login with your account and password. For the first time user, you have to register a new account with your email address.
4. Press ADD DEVICE and select LIGHTING DEVICES to set up a new device.
5. Screw in the bulb into a lighting fixture, the led bulb will flash quickly. If the bulb does not flash quickly, turn the bulbs on/off 3 times and on again, the light will then flash quickly.
6. Press CONFIRM on your App screen.
7. Connect to your WiFi network and enter its password. Then press NEXT on your App screen.
8. Connection cycle will Appear. Text located on the bottom of the screen will begin to be highlighted green. Once all 3 points are highlighted in green, the cycle will complete 100%.
9. You are now ready to control your power from anywhere. Enjoy!
