SAFETY INSTRUCTION

Please study the instruction manual and below information carefully before installing or using this product. Please keep this user manual for further reference

- 1. The luminaires may only be installed by authorized and quo lified technicians according the valid regulations for electrical install ation.
- Maintenance of the luminaires is limited to their surfaces. During maintenance no moisture can come into contact with any areas of the terminal connections or voltage control parts.
- 3. The electrical supply must be switched off at the oufset, preferably by means of a switch in the distribution box, before any installation, maintenance or repair work is undertaken.
- 4. Exterior lighting must not be installed during rain.
- 5. Take account of the minimal separation distance from other objects and the room required around the fifiing.
- 6. If in any doubt, consult a professional, taking local installation requirements into account. Some countries stipulate thot lighting may be instolled only by registered instollers.
- Clomping screws in electrico I connections must be adequotelγ *'ehtened. This is particulo rly the case with I 2V low voltage conductors.
- B. Clean with a clean, dry cloth or brush, use no solvents or abrasives. Avoid dampness on all electrics I compo nenfs
- 9. Toke account of all available technical information.
- I 0.Meaning of symbols:

| | For indoor use only, where direct contact with water is impossible |
|------------------|---|
| 1 | This icon indicates the level of water-proof and dust-proof |
| | Protection Class I: the fitting must be earthed |
| @ | Protection Class II: the fifiing is doubled insulated and does not require earthing |
| | Protection Class III: the filling is low voltoge |
| *") | Minimum distance from lighted objects (meters) |
| .) <u>%</u> " | The fype of lamp and maximum size and wofioge indicated in each lighting unit must not be exceed; different items require different kind of light sources with different bulb icons |
| ty. '0" | The a rmature is designed to work only with the indicoted voltage. Different items require different working voltage. |
| | The luminaire can be used in combination with a dimmer |
| | The reference light angle and light space of the luminaire |
| X | This luminaire cannof be disposed together with normal domestic waste in standard rubbish can, but you have to bring it to a staging area for electrical waste |

1 I.Take note of the symbols when connecting wires:
