(GB) Safety Precautions / (FR) Symboles utilisés / (DE) Verwendete Symbole / (PL) Stosowane symbole / (NO) Brukte symboler / (DK) Brugte symboler / (SE) Använda symboler / (FI) Käytetyt symbolit / (IT) Simboli usati / (ES) Símbolos empleados / (CZ) Použité symboly / (PT) Símbolos utilizados / (GR) Χρησιμοποιούμενα σύμβολα

1. REMOTE CONTROL

The remote control included with the lamp is already connected and ready to use once the batteries are installed

Type number **IR** remote: ATIR005

Coverage area: 5m

2. Installing the app

Search for the Tuya Smart App in the App Store or Google Play

Store and install it on your device or scan the respective QR code here:

Play Store

App Store

3. Registration

Open the app and follow the instructions.

4. Connect with the app

4.1 Automatic connection

4.1.1 Make sure that there is sufficient WLAN coverage to connect the devices.

The closer the fixture is to the router, the faster and more secure the process will be.

4.1.2 Open the app and log in.

4.1.3 To add the luminaire in the app, it must be put into pairing mode. To do this, switch the light off/on 3 times in a quick succession at the wall switch. After a short time, the light will start to flash.

4.1.4 The light is then displayed in the app. If necessary, update the app by swiping downwards on the screen. Tap on "Add" and follow the steps in the app.

Attention:

Your WLAN ceiling light can only be connected to 2.4 Ghz networks!

4.2 Manual pairing

4.2.1 Make sure that there is sufficient WLAN coverage to connect the devices.

The closer the fixture is to the router, the faster and more secure the process will be.

4.2.2 Open the app and log in.

4.2.3 In the app, click on the PLUS at the top right to add a device.

4.2.4 Select the category "Lighting" and tap on "Ceiling light (Wi-Fi)". Now follow the steps in the app.

Simplified Declaration of Conformity:

Hereby, FittinQ BV declares that the radio equipment type [designation of type of radio equipment] is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address:

www.qazqa.nl

SAFETY INSTRUCTION

Please study the instruction manual and below information carefully before installing or using this product. Please keep this user manual for further reference

1. The luminaires may only be installed by authorized and qualified technicians according the valid regulations for electrical installation.
2. Maintenance of the luminaires is limited to their surfaces. During maintenance no moisture can come into contact with any areas of the terminal connections or voltage control parts.
3. The electrical supply must be switched off at the outset, preferably by means of a switch in the distribution box, before any installation, maintenance or repair work is undertaken.
4. Exterior lighting must not be installed during rain.
5. Take account of the minimal separation distance from other objects and the room required around the fitting.
6. If in any doubt, consult a professional, taking local installation requirements into account. Some countries stipulate that lighting may be installed only by registered installers.
7. Clamping screws in electrical connections must be adequately tightened. This is particularly the case with 12V low voltage conductors.
8. Clean with a clean, dry cloth or brush, use no solvents or abrasives. Avoid dampness on all electrical components
9. Take account of all available technical information.
10. Meaning of symbols:

This icon indicates the level of water-proof and dust-proof

Protection Class I: the fitting must be earthed

Protection Class II: the fitting is doubled insulated and does not require earthing

Protection Class III: the fitting is low voltage

Minimum distance from lighted objects (meters)

The type of lamp and maximum size and wattage indicated in each lighting unit must not be exceed; different items require different kind of light sources with different bulb icons

The armature is designed to work only with the indicated voltage. Different items require different working voltage.

The luminaire can be used in combination with a dimmer

The reference light angle and light space of the luminaire

This luminaire cannot be disposed together with normal domestic waste in standard rubbish can, but you have to bring it to a staging area for electrical waste

1.1. Take note of the symbols when connecting wires:

	(DE)	(GB)	(FR)	(NL)	(PL)	(NO)	(DK)
