IP44

Chill Light String 10 Clear 107655

Warranty

- This luminaire is covered by a 1-year warranty valid for in-store replacement or refund only.
- This luminaire is not suitable for use with dimmer switches. The warranty will be void if the luminaire is used on the same circuit, which has a dimmer switch.
- Warranty will be void if there is any damage due to improper usage or modification to the luminaire.
- Failure to comply with the instructions in this manual may increase the risk of damage or injury and will void the warranty

Installation Requirements

- This luminaire is designed to be used with a mains power socket outlet (not included).
- The installation location must have an existing mains power socket outlet (not included) pre-installed.
If you don't have an existing mains power socket outlet (not included), please contact your licensed electrician.

- Select a suitable location for installation:
-The mounting point must support 2 times the weight of the luminaire.
This luminaire is protected against water penetration to IP44 standards, which is against low-pressure jets of water from all practicable directions.

- Only use the supplied plug-in power supply with this luminaire.
 - The luminaire must not be used if the protective shield has cracked. Replace any cracked protective shield before using the luminaire.
 - Take care not to pull any electrical wires during unpacking as this may damage the connection.
 - Lay out all the components on a smooth surface and make sure there are no components missing before assembling.
- If parts are missing, return the complete product to the place of purchase for inspection or replacement.
- Check whether the luminaire has been damaged during transport. Do not operate/install any product which appears damaged in any way. Return the complete product to the place of purchase for inspection, repair or replacement.
 - Do not plug into the mains power socket outlet before or during assembly. Only do so after the luminaire is fully assembled and is ready to use for the first time.

Installation Directions

- Ensure power to the circuit you are working on has been switched OFF before commencing any electrical work.
 - Remove all packaging material from the product and be careful not to throw away accessories that may be hidden within the packaging material.
 - Using the loops on the luminaire, hang the luminaire up onto hooks.
 - Connect the luminaire to the plug-in power supply and tighten the bi-pin plugs.
- NOTE: Only use the supplied plug-in power supply with this luminaire.**
- Insert the plug-in power supply (A) into mains power socket outlet (not included) and ensure it is fully plugged in.
 - Switch on the luminaire to test all the lighting functions and enjoy your new luminaire

SAFETY INSTRUCTION

Please study the instruction manual and below information carefully before installing or using this product.
Please keep this user manual for further reference

1. The luminaires may only be installed by authorized and qualified technicians according the valid regulations for electrical installation.
2. Maintenance of the luminaires is limited to their surfaces. During maintenance no moisture can come into contact with any areas of the terminal connections or voltage control parts.
3. The electrical supply must be switched off at the outset, preferably by means of a switch in the distribution box, before any installation, maintenance or repair work is undertaken.
4. Exterior lighting must not be installed during rain.
5. Take account of the minimal separation distance from other objects and the room required around the fitting.
6. If in any doubt, consult a professional, taking local installation requirements into account. Some countries stipulate that lighting may be installed only by registered installers.
7. Clamping screws in electrical connections must be adequately tightened. This is particularly the case with 12V low voltage conductors.
8. Clean with a clean, dry cloth or brush, use no solvents or abrasives. Avoid dampness on all electrical components
9. Take account of all available technical information.
10. Meaning of symbols:

This icon indicates the level of water-proof and dust-proof

Protection Class I: the fitting must be earthed

Protection Class II: the fitting is doubled insulated and does not require earthing

Protection Class III: the fitting is low voltage

Minimum distance from lighted objects (meters)

The type of lamp and maximum size and wattage indicated in each lighting unit must not be exceed; different items require different kind of light sources with different bulb icons

The armature is designed to work only with the indicated voltage. Different items require different working voltage.

The luminaire can be used in combination with a dimmer

The luminaire can be dimmed by wall switch

The reference light angle and light space of the luminaire

This luminaire cannot be disposed together with normal domestic waste in standard rubbish can, but you have to bring it to a staging area for electrical waste

11. Take note of the symbols when connecting wires:

	(DE)	(GB)	(FR)	(NL)	(PL)	(NO)	(DK)
