Maloi TL White Rechargeable 108096

Warning:

1. Please use an adapter with 5V output to charge this lamp, do not use super charger with output voltage more than 5V.
2. Please make sure the battery is fully charged when using this lamp for the first time
3. Please pull out the charging cable and close the silicone waterproof plug after charging is completed.
4. Please do not use this lamp with exceeded voltage for long time in case of fire.
5. Please do not place this lamp close to high temperature materials for long time in case of fire
6. Please turn off the power and contact a professional if there is any abnormality.

Function:

Touch switch: short touch --- on / off; long touch --- stepless dimming.

Green indicator light: the battery is fully charged.

Green indicator light flash: the battery is in charging.

Blue indicator light: the USB output is charging other devices.

Blue indicator light flash: The lamp has a low power supply and needs to be charged.

Dimmable type	Stepless Dimming
Dimming range/lumen/battery life	100%/148lm/12hrs
Full charging time	6H(5V 0.8A), 2H(5V 2A)
Battery life cycle	300times
Battery specification	Li-ion 3.7Vdc 4000mAH

SAFETY INSTRUCTION

Please study the instruction manual and below information carefully before installing or using this product.
Please keep this user manual for further reference

1. The luminaires may only be installed by authorized and qualified technicians according the valid regulations for electrical installation.
2. Maintenance of the luminaires is limited to their surfaces. During maintenance no moisture can come into contact with any areas of the terminal connections or voltage control parts.
3. The electrical supply must be switched off at the outset, preferably by means of a switch in the distribution box, before any installation, maintenance or repair work is undertaken.
4. Exterior lighting must not be installed during rain.
5. Take account of the minimal separation distance from other objects and the room required around the fitting.
6. If in any doubt, consult a professional, taking local installation requirements into account. Some countries stipulate that lighting may be installed only by registered installers.
7. Clamping screws in electrical connections must be adequately tightened. This is particularly the case with 12V low voltage conductors.
8. Clean with a clean, dry cloth or brush, use no solvents or abrasives. Avoid dampness on all electrical components
9. Take account of all available technical information.
10. Meaning of symbols:

 This icon indicates the level of water-proof and dust-proof

 Protection Class I: the fitting must be earthed

 Protection Class II: the fitting is doubled insulated and does not require earthing

 Protection Class III: the fitting is low voltage

 Minimum distance from lighted objects (meters)

 The type of lamp and maximum size and wattage indicated in each lighting unit must not be exceed; different items require different kind of light sources with different bulb icons

 The armature is designed to work only with the indicated voltage. Different items require different working voltage.

 The luminaire can be used in combination with a dimmer

 The luminaire can be dimmed by wall switch

 The reference light angle and light space of the luminaire

This luminaire cannot be disposed together with normal domestic waste in standard rubbish can, but you have to bring it to a staging area for electrical waste

1.1. Take note of the symbols when connecting wires:

	(DE)	(GB)	(FR)	(NL)	(PL)	(NO)	(DK)
	Stromführender Leiter	Live conductor	Conducteur	Spanningvoerende draad	Przewód prądowy	Strømførende leder	Strømførende leder
	Schutzleiter	Earth conductor	Conducteur de protection (terre)	Aardkabel	Przewód uziemiający	Jordledningen	Jordledningen
	Neutralleiter	Neutral conductor	Conducteur neutre	Nulleider	Przewód zerowy	Nøytralleder	Neutralleider
