## LED Wall Lamp 108662/108663

	<p><b>(DE)</b> Durch einen Fachmann austauschbare Lichtquelle (nur LED). <b>(EN)</b> Replaceable (LED only) light source by a professional. <b>(FR)</b> Source de lumière remplaçable (LED uniquement) par un professionnel. <b>(NL)</b> Lichtbron (alleen led) te vervangen door een professional. <b>(PL)</b> Wymienne (tylko LED) źródło światła wykonane przez profesjonalistę. <b>(NO)</b> Utskiftbar (kun LED) lyskilde av en profesjonell. <b>(DK)</b> Udskiftelig lyskilde (kun LED), udskiftes af en elektriker. <b>(SE)</b> Ljuskälla (endast LED) utbytbar genom fackman. <b>(FI)</b> Ammattilainen voi vaihtaa vaihdettavan (vain LED) valonlähteen. <b>(IT)</b> Sorgente luminosa (solo LED) sostituibile da un professionista. <b>(ES)</b> Fuente de luz (solo LED) sustituable por un profesional. <b>(CZ)</b> Vyměnitelný (pouze LED) světelný zdroj odborníkem. <b>(PT)</b> Luz LED (apenas LED) substituível por um profissional. <b>(GR)</b> Η πηγή φωτός (μόνο LED) να αντικαθίσταται από επαγγελματία. <b>(SK)</b> Zdroj svetla (iba LED) vymeniteľný prostredníctvom odborníka.</p>
---	---

## Instructions

1. Touch the button to adjust the light brightness: low -medium - high.
2. Long press 2 seconds to change the color temperature.
3. Smart Memory Function: after being switched on for 30 seconds, if you turn it off, and switch it back on, the light returns to your last chosen brightness and color temperature setting.
4. Charging: red light; full: green light.

# SAFETY INSTRUCTION

Please study the instruction manual and below information carefully before installing or using this product. Please keep this user manual for further reference

1. The luminaires may only be installed by authorized and qualified technicians according the valid regulations for electrical installation.
2. Maintenance of the luminaires is limited to their surfaces. During maintenance no moisture can come into contact with any areas of the terminal connections or voltage control parts.
3. The electrical supply must be switched off at the outset, preferably by means of a switch in the distribution box, before any installation, maintenance or repair work is undertaken.
4. Exterior lighting must not be installed during rain.
5. Take account of the minimal separation distance from other objects and the room required around the fitting.
6. If in any doubt, consult a professional, taking local installation requirements into account. Some countries stipulate that lighting may be installed only by registered installers.
7. Clamping screws in electrical connections must be adequately tightened. This is particularly the case with 12V low voltage conductors.
8. Clean with a clean, dry cloth or brush, use no solvents or abrasives. Avoid dampness on all electrical components
9. Take account of all available technical information.
10. Meaning of symbols:

This icon indicates the level of water-proof and dust-proof

Protection Class I: the fitting must be earthed

Protection Class II: the fitting is doubled insulated and does not require earthing

Protection Class III: the fitting is low voltage

Minimum distance from lighted objects (meters)

The type of lamp and maximum size and wattage indicated in each lighting unit must not be exceed; different items require different kind of light sources with different bulb icons

The armature is designed to work only with the indicated voltage. Different items require different working voltage.

The luminaire can be used in combination with a dimmer

The luminaire can be dimmed by wall switch

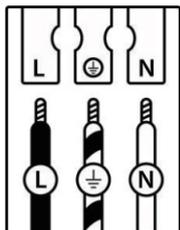

The reference light angle and light space of the luminaire

This luminaire cannot be disposed together with normal domestic waste in standard rubbish can, but you have to bring it to a staging area for electrical waste

## 11. Take note of the symbols when connecting wires:

	(DE)	(GB)	(FR)	(NL)	(PL)	(NO)	(DK)
