Instruction of Rechargeable Candle Light

Parts Enclosed

- Part A: Adaptor
- Part B: Charge base
- Part C: Light(2 Purchase)

Warning

1. CHARGE THE LIGHT FOR 8 TO 12 HOURS BEFORE USE;
2. DO NOT CONNECT THE CHARGE BASE WITH 100V-240V POWER SUPPLY DIRECTLY;
3. DO NOT RECHARGE NON-RECHARGEABLE BATTERY;
4. THESE LIGHT ARE FOR INDOOR USE. PLEASE DO NOT DISPOSE THEM IN RAIN.

How to Use

1. Plug the adaptor(Part A) to the power supply.
2. Connect the output terminal of adaptor on the input socket of the charge base(Part B).
3. Turn off the lights and put the lights(Part C) on the holes of charge base. The lights would be charged automatically on the base.
4. The lights could be used after 8 hours charging.
5. Take the light from the base. The light could be turned on by pushing the ON/OFF switch button.
6. Push the ON/OFF switch again to turn off the light when necessary.

REPLACE BATTERIES

When the light works for less than 2.5 hours after 8 hours charge, please replace the batteries to keep the performance.

1. Take out the battery holder by twisting the bottom of the light(Part C) anti-clockwise.
2. Remove the plastic shell on the battery holder.
3. Replace the old batteries with new 2/3AA size, 1.2v/600mA rechargeable batteries.
4. Twist back the bottom of the light onto the cover.
5. Recharge the light for 8 hours before use.

Warning: Do not dispose of batteries in fire. Batteries may explode or leak. Do not open, shortcircuit, or mutilate batteries as injury may occur. Preserve our environment by recycling battery or disposing of them in accordance with Local State and Federal regulation.
